MATRICULTURES

Friday May 18, at 7 pm

How things could be different?—because they have been! Egalitarian matrilineal / matrilocal cultures show a way of being human outside the paradigm of domination. Not a mirror image of patriarchy, but a totally different way of life, in which the life support matrix is the highest good. Societies like these falsify the doctrine that domination is universal and unavoidable. History sibyl Max Dashu draws on her 48 years of research on mother-right in this richly expanded visual talk.
